# ABOUT US

Vraja Technologies is a trusted **Odoo Partner worldwide** focused on building purpose-driven Odoo apps that simplify complex operations.

## We specialize in:

- **Shipping Integrations**
- **EDI Automation**
- **FTP Connectors**
- **eCommerce Workflows**
- **3PL Coordination**

Explore our apps on the [Odoo App Store](#).

# EDI SOLUTIONS

Electronic Data Interchange (EDI) enables automated, standardized communication between trading partners — removing manual paperwork, emails, or spreadsheets.

## Key Capabilities

1. **Auto Import/Export** Transactions, Inventory, PO, Bills, ASN
2. Connect with **Multiple FTP/SFTP Servers**
3. **Support** for XML, ANSI X12 & EDIFACT Formats
4. **Interactive Interface** & Detailed Process Logs
5. **Secure, Standard-Compliant** Data Transfers

## Supported EDI File Types

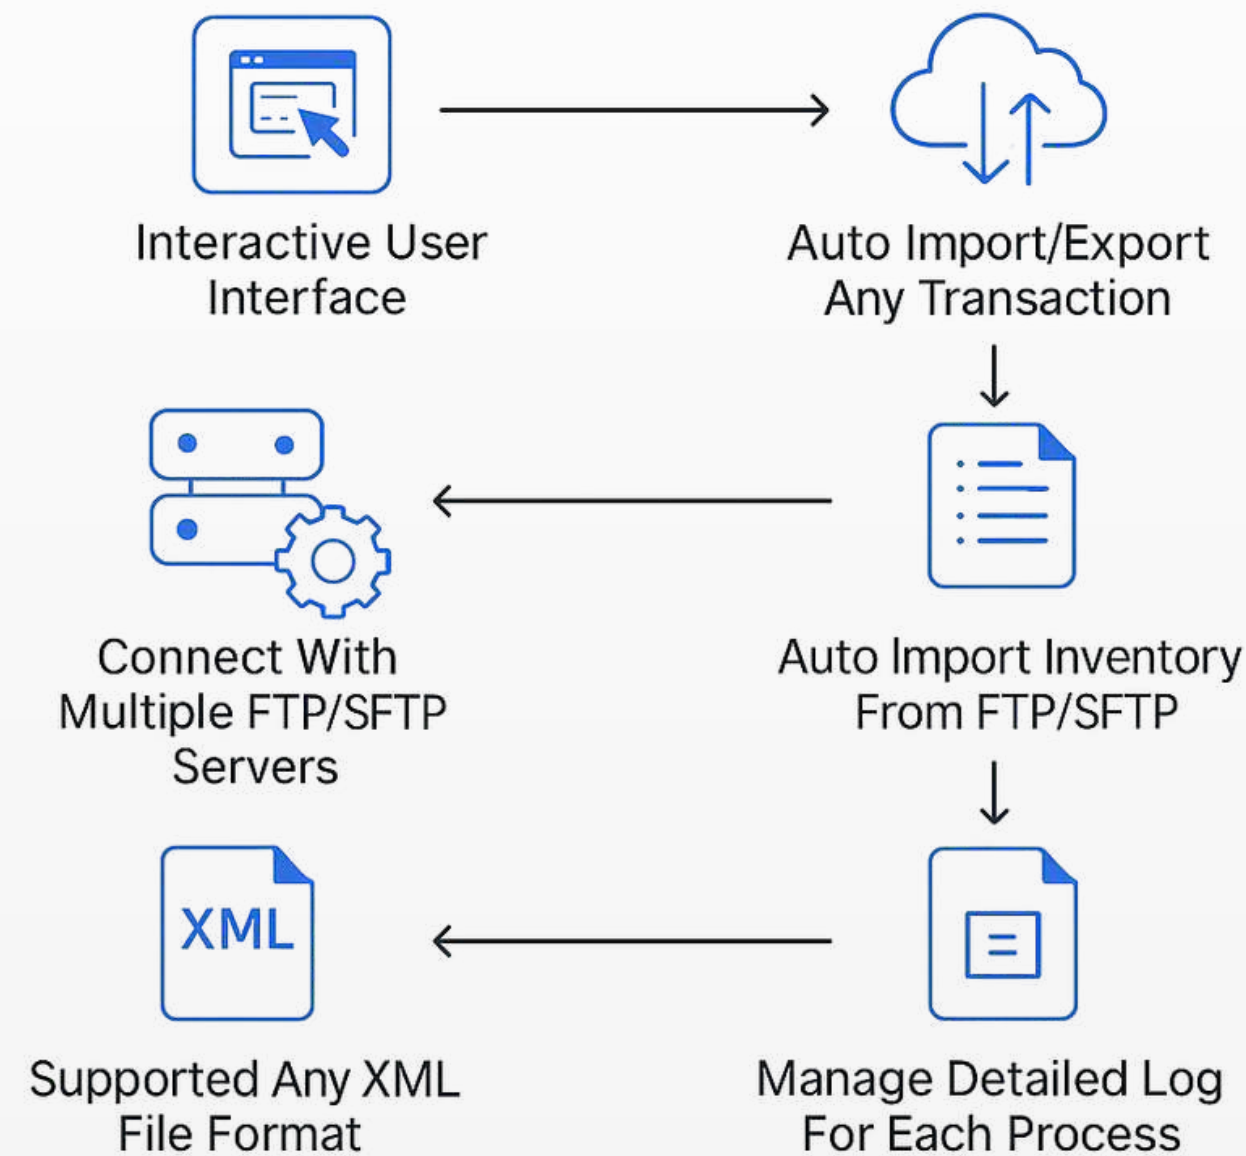

1. **EDI XML Connector** – Custom XML Import/Export
2. **EDIFACT** – Standard European EDI Format
3. **ANSI X12 EDI** – US-based Standard (850, 855, 810, etc.)

# EDI XML CONNECTOR

Seamlessly manage EDI files in Odoo via FTP/SFTP – auto import/export data, map folder structures, and attach files effortlessly.

## Key Capabilities

- Supports any **XML file format**
- Connect with **multiple** FTP/SFTP **servers**
- Auto import/export of **any transaction**
- Auto **import inventory** from FTP/SFTP
- **Detailed log** for each process
- **Interactive** user interface
- Fully **integrated with Odoo**

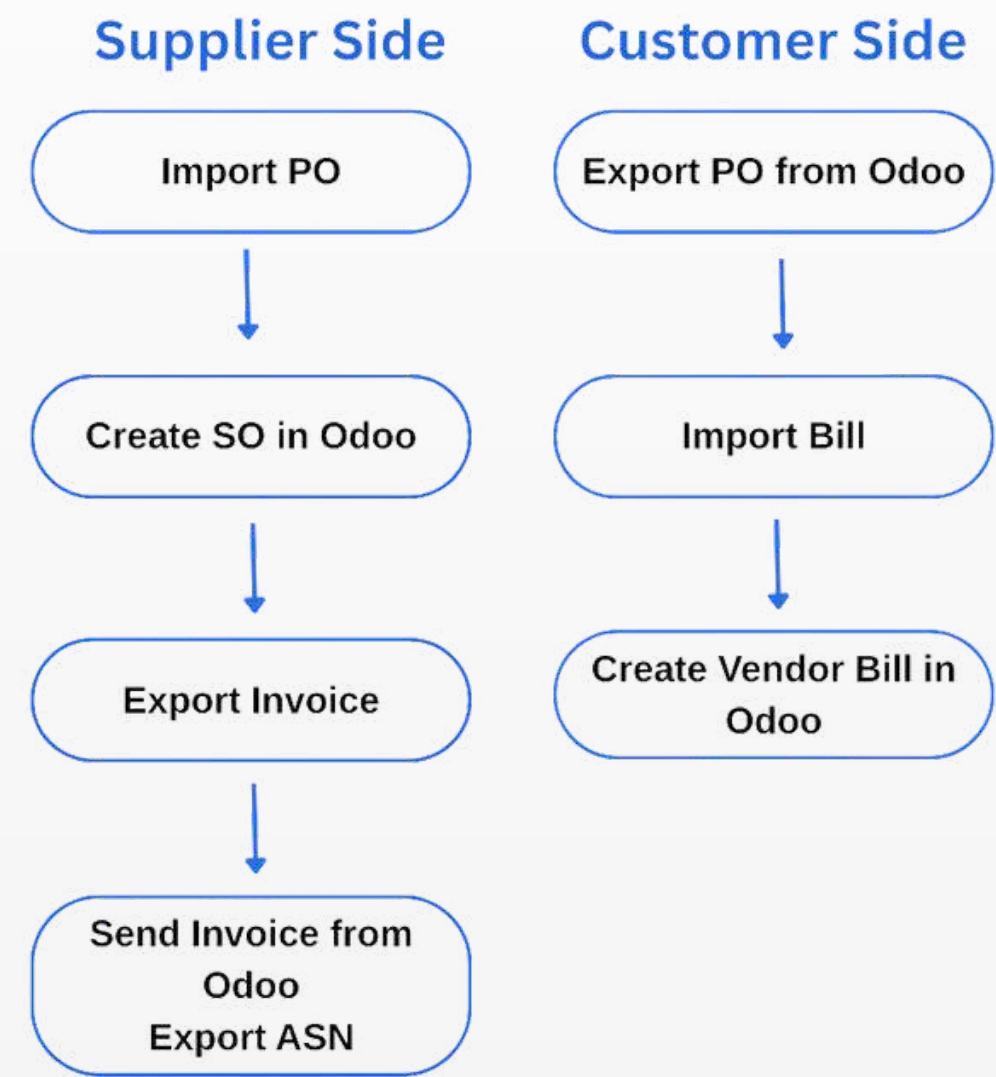

# EDIFACT (Standard European EDI Format)

Integrate EDIFACT with Odoo to automate order, invoice, and ASN processing for suppliers. Import POs, create SOs, and export invoices & delivery details seamlessly via FTP.

## Key Features

- **Auto import** Purchase Orders → Create Sales Orders in Odoo
- **Export** Customer Invoices directly from Odoo
- **Export** Advanced Ship Notices (**ASN**)
- **Supports EDIFACT** standard for structured data exchange
- **Secure** FTP/SFTP-based communication

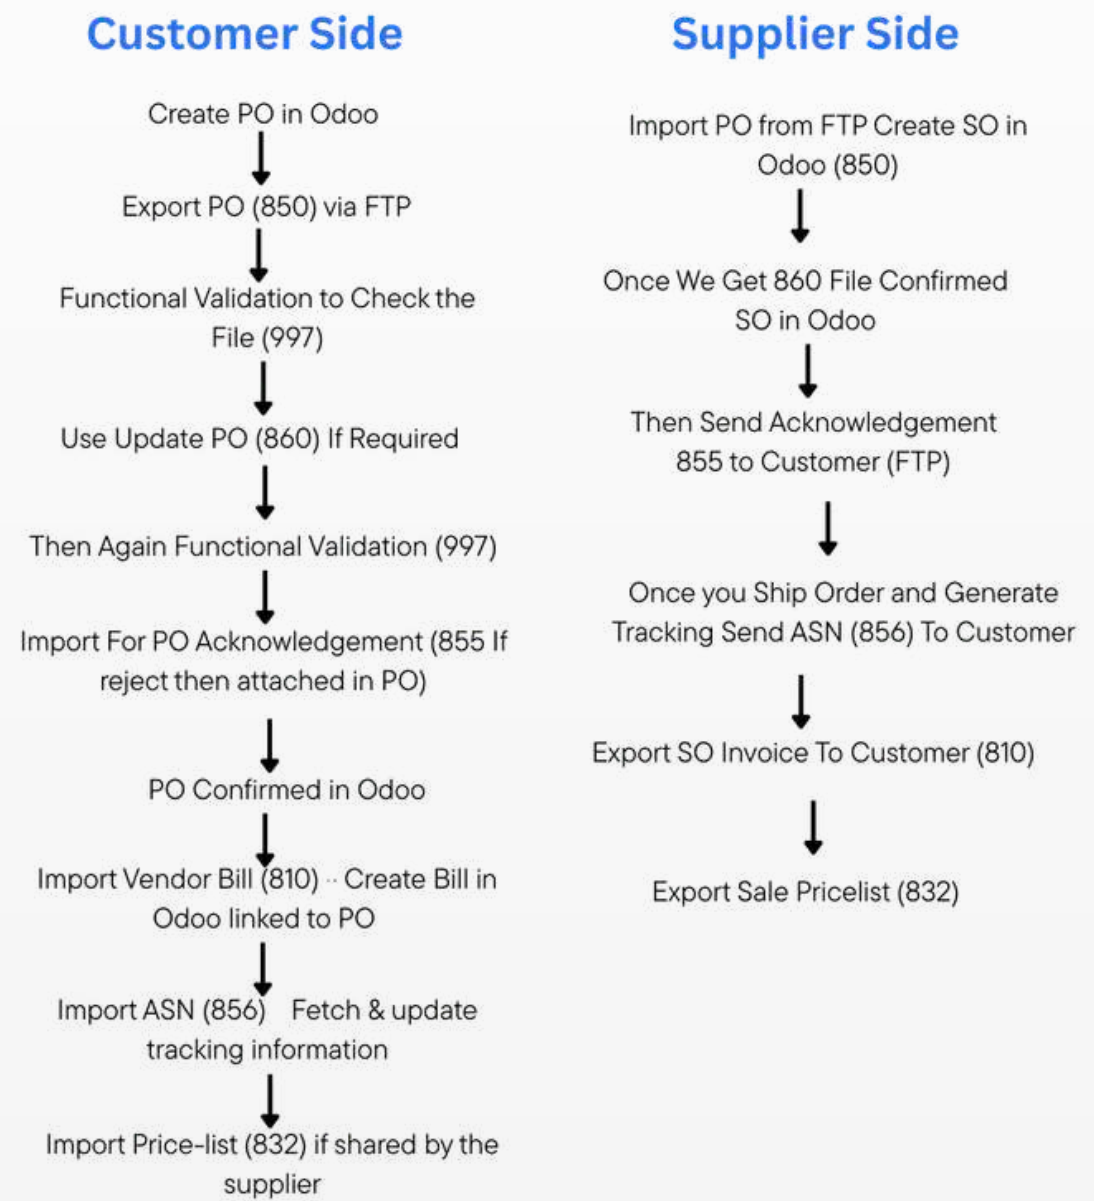

# ANSI X 12 (US-based Standard)

Automate ANSI X12 EDI with Odoo to sync POs, bills, ASN, acknowledgements, and vendor price lists. Ensure accurate data exchange via secure FTP and standardised document formats.

## Key Features

- Export **multi-version** Purchase Orders
- Fully supports **ANSI X 12 EDI format**
- **Secure transfer** via FTP/SFTP protocols
- Comprehensive **Import Support**

# DYNAMIC IMPORT/EXPORT

Seamlessly import/export CSV, XML, XLS, TSV files from FTP/SFTP into Odoo. Ideal for syncing data across CRM leads, sales orders, invoices, or custom models.

## Key Capabilities

- **Dynamic Import/Export** File From FTP/SFTP
- **Supported Format** CSV,XLS,XML,TSV
- All Types of **Data Mapping**
- **Validation** of data and Error management
- **Auto Import/Export** File From FTP/SFTP

## Different Supported Apps

1. [Dynamic Import & Export Records](#)
2. [Dynamic Import XML Records](#)

# DYNAMIC IMPORT & EXPORT RECORDS

Streamline Odoo data flow with dynamic import/export via FTP/SFTP in CSV, TSV, XLSX formats.

Supports mapping, validation, one2many exports, and manual import with full customisation and logging.

## Key Features

- Supports **CSV, TSV, and XLSX** formats for import/export
- Handles **UTF-8, ISO-8859-1 encoding**; comma/semicolon delimiters
- Dynamic field mapping, including **one2many** relationships
- **Split large files** for batch import processing
- **Validates data** with **error handling** on import
- **Manual upload** (import) + FTP/SFTP integration (import/export)
- **Customizable export** : fields, filters, required checks
- **Export multiple models** at once in structured format
- **Detailed logging** for traceability
- Clean and **user-friendly interface**

# DYNAMIC IMPORT XML RECORDS

Easily import XML data into Odoo with dynamic mapping and customisation rules. Supports manual upload and auto-processing for seamless integration.

## Key Features

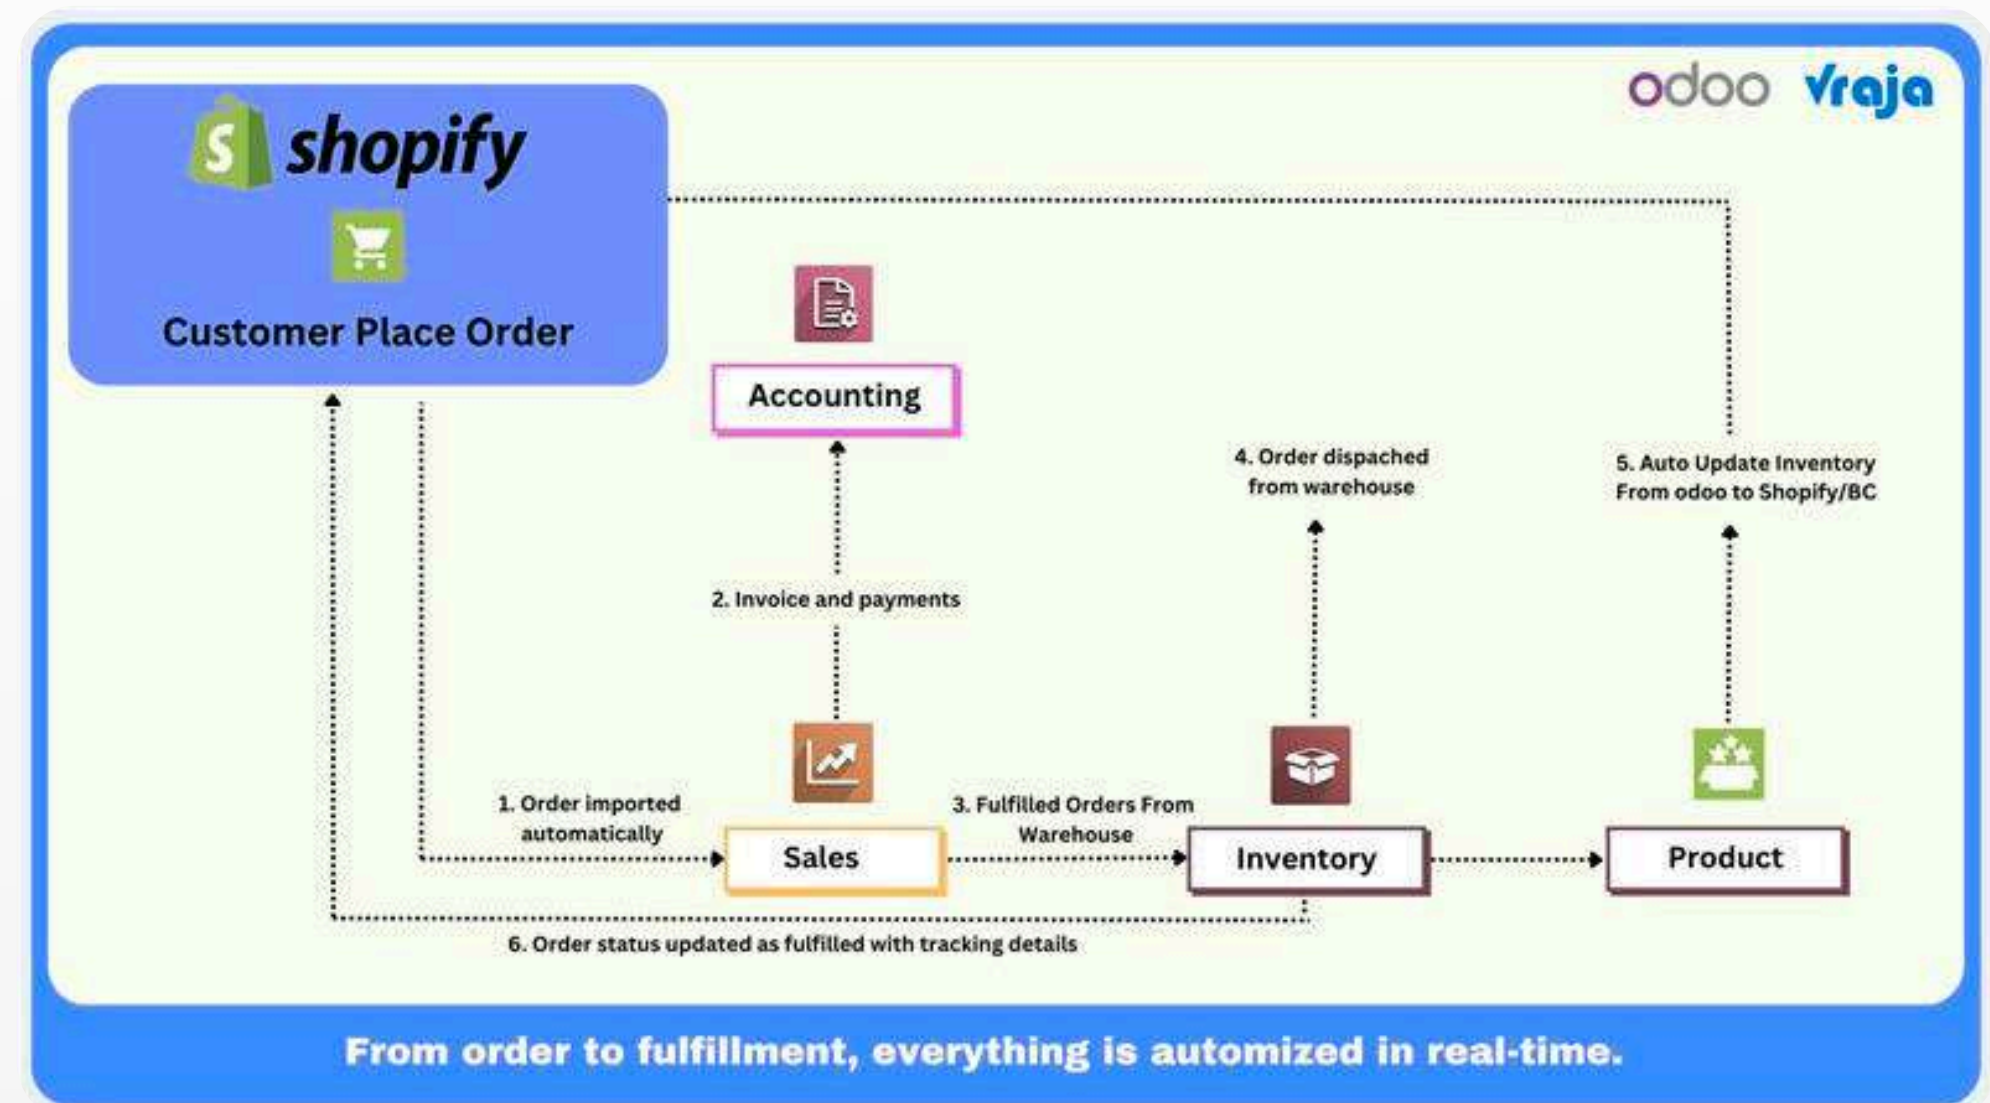

- Connect With **Multiple FTP/SFTP Servers**
- Supported Any **XML File Format**
- Auto **Import / Upload** Files **Manually**
- Auto **Import Inventory** From FTP/SFTP
- Manage **Detailed Log** For Each Process
- **Interactive** User Interface

# SHOPIFY X ODOO

Integrate Shopify with Odoo to automate product updates, order processing, and inventory management. Eliminate manual work and manage everything from sales to reporting in one unified platform.

## Key Features

- **Import** products, orders, and customers
- **Real-time sync** via webhooks
- **Export** stock, prices, and delivery status
- Fast setup with **multi-store support**
- **Centralized**, smooth store management

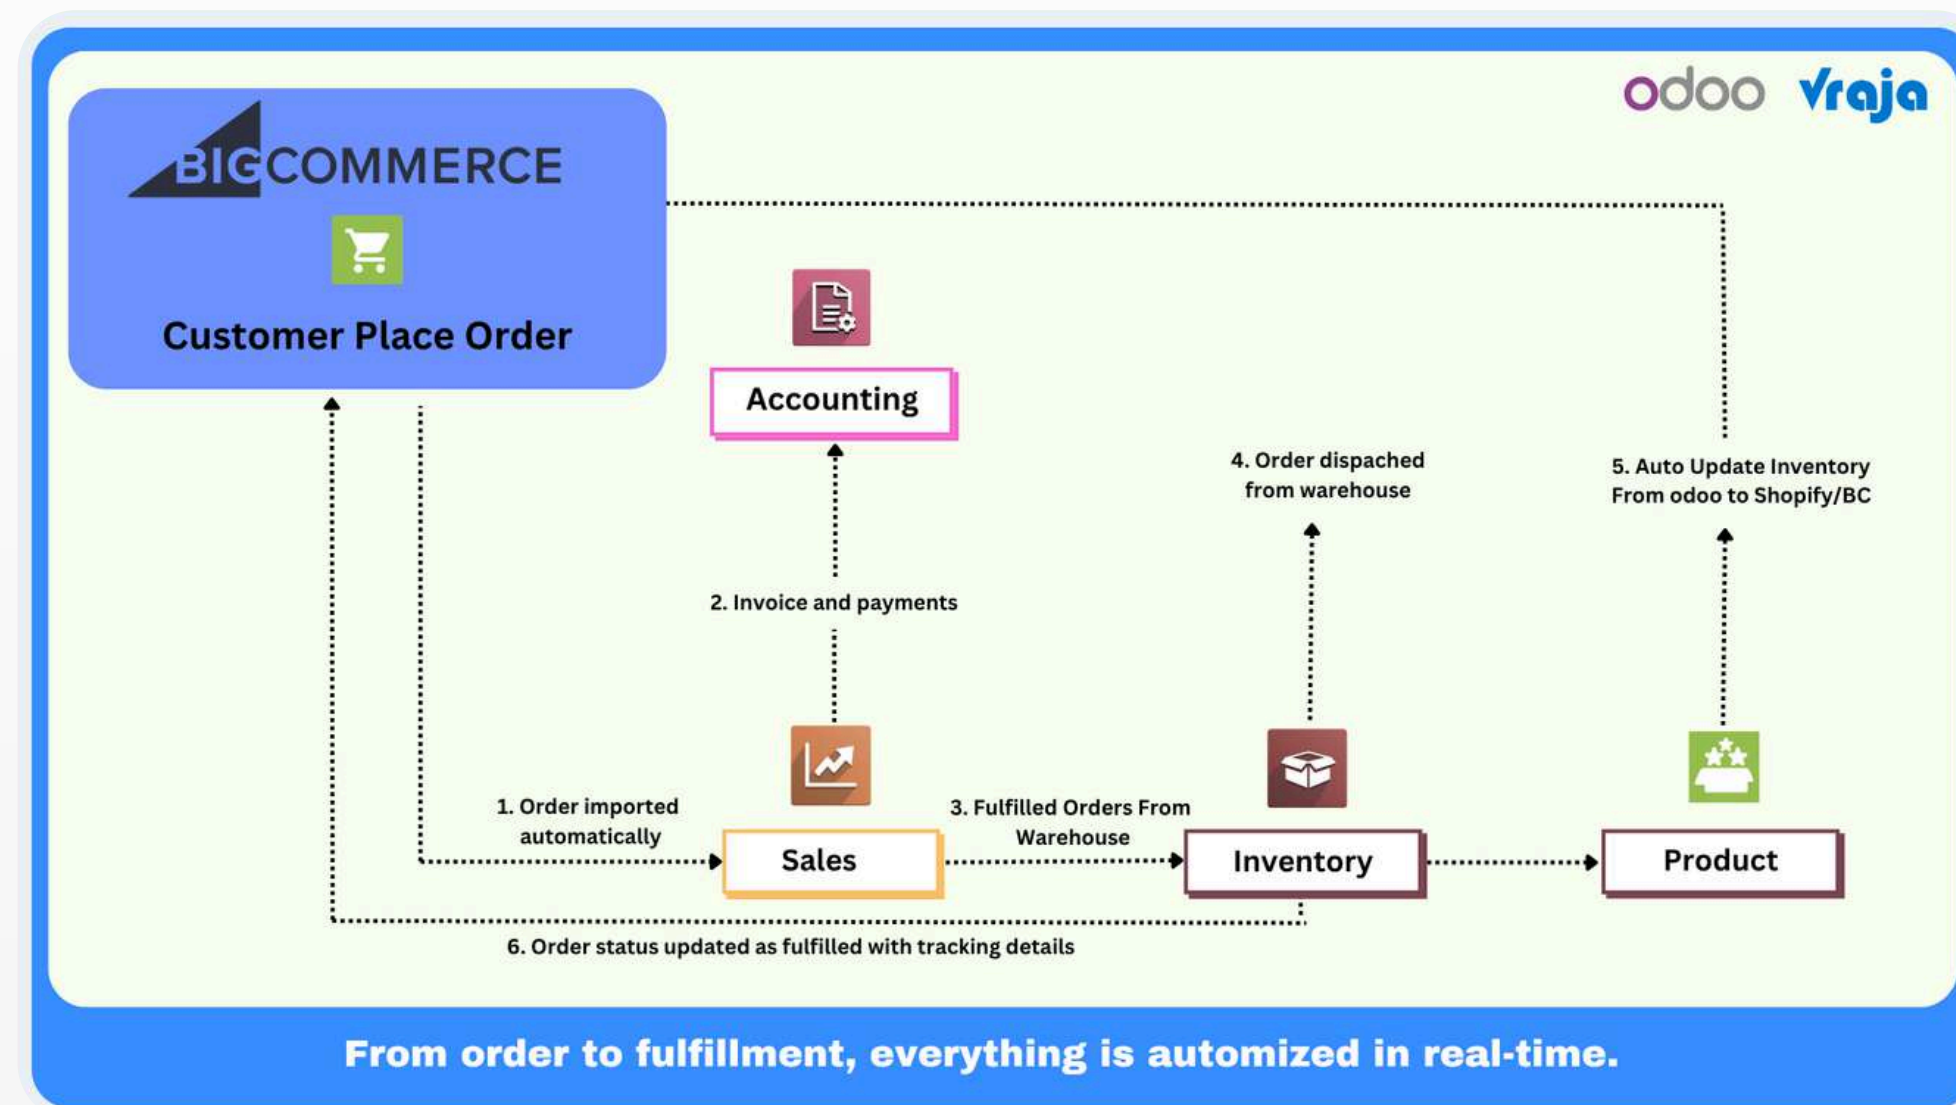

# BIGCOMMERCE X ODOO

BigCommerce Odoo Integration simplifies store management from day one. Import/export orders, products, customers, and more — all in Odoo.

## Key Features

- **Import/export** products, customers, and orders
- **Auto-sync** stock, price, and order status
- **One-click** setup, easy to use
- Supports **multiple BigCommerce stores**
- **Reliable sync** with regular updates

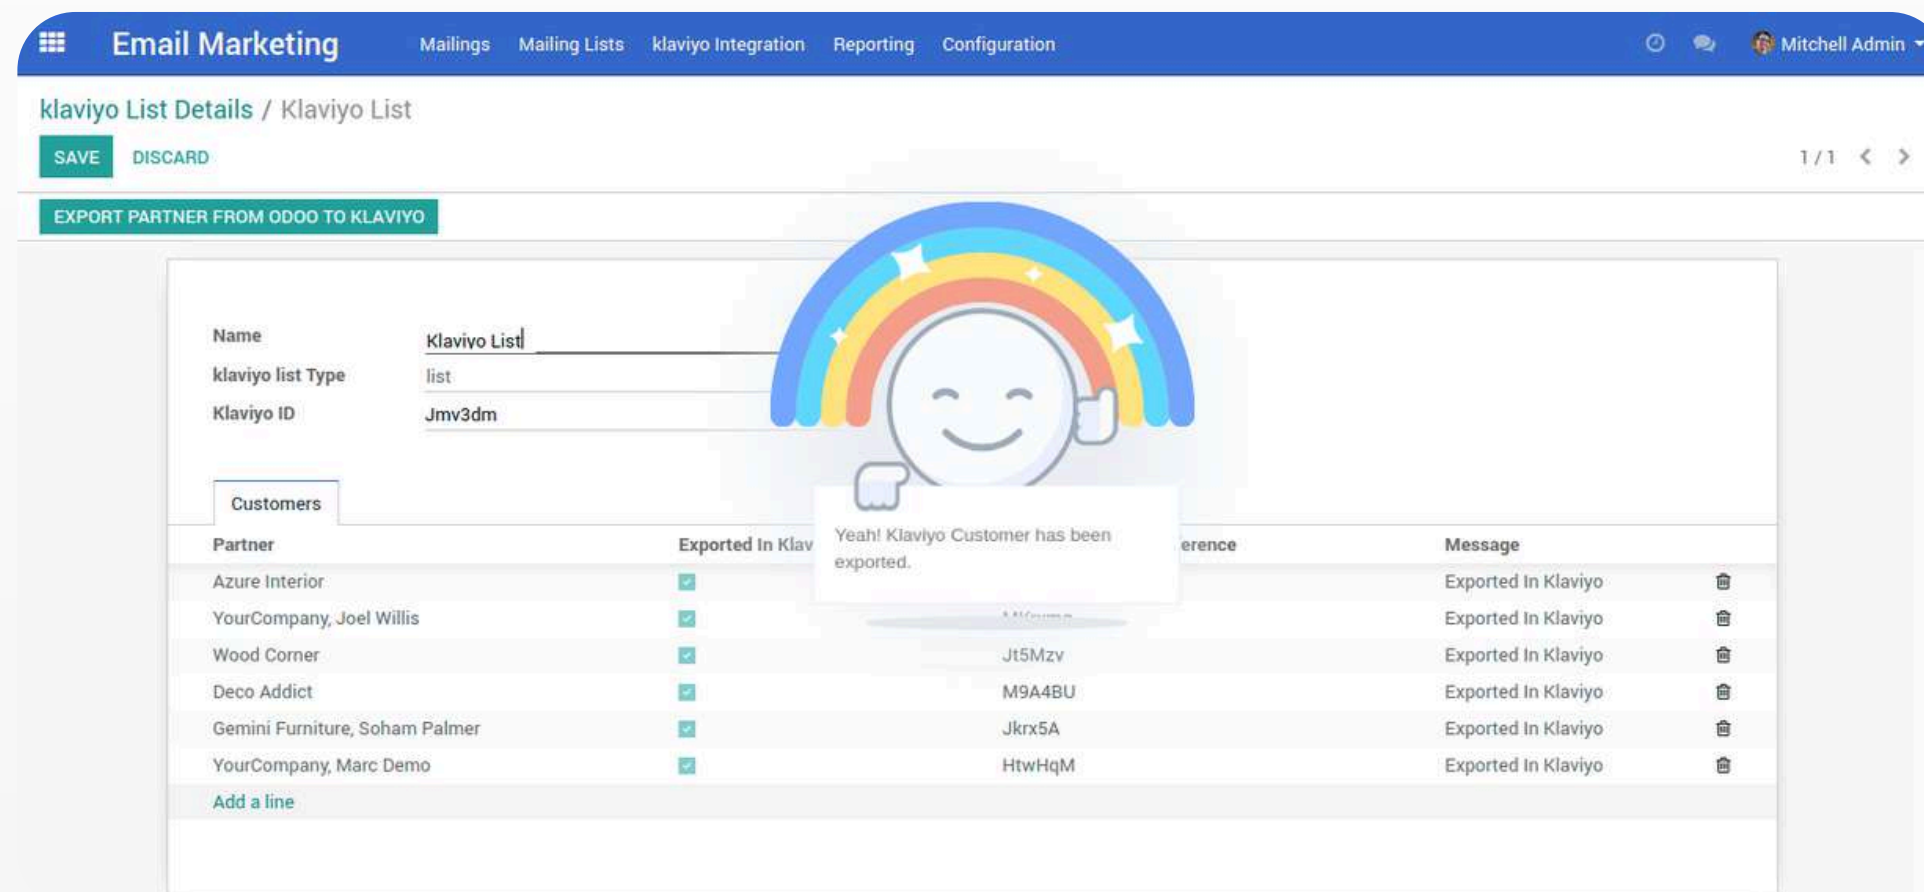

# KLAVIYO X ODOO

Empower your e-commerce growth with advanced marketing automation, real-time data sync, and impactful campaigns without slowing you down.

## Key Features

- Most **effective** eCommerce marketing integration
- **Export** customer lists from Odoo to Klaviyo
- **Import** customer lists from Klaviyo to Odoo
- **Sync** customers & order data seamlessly
- **Export marketing metrics** from Odoo to Klaviyo

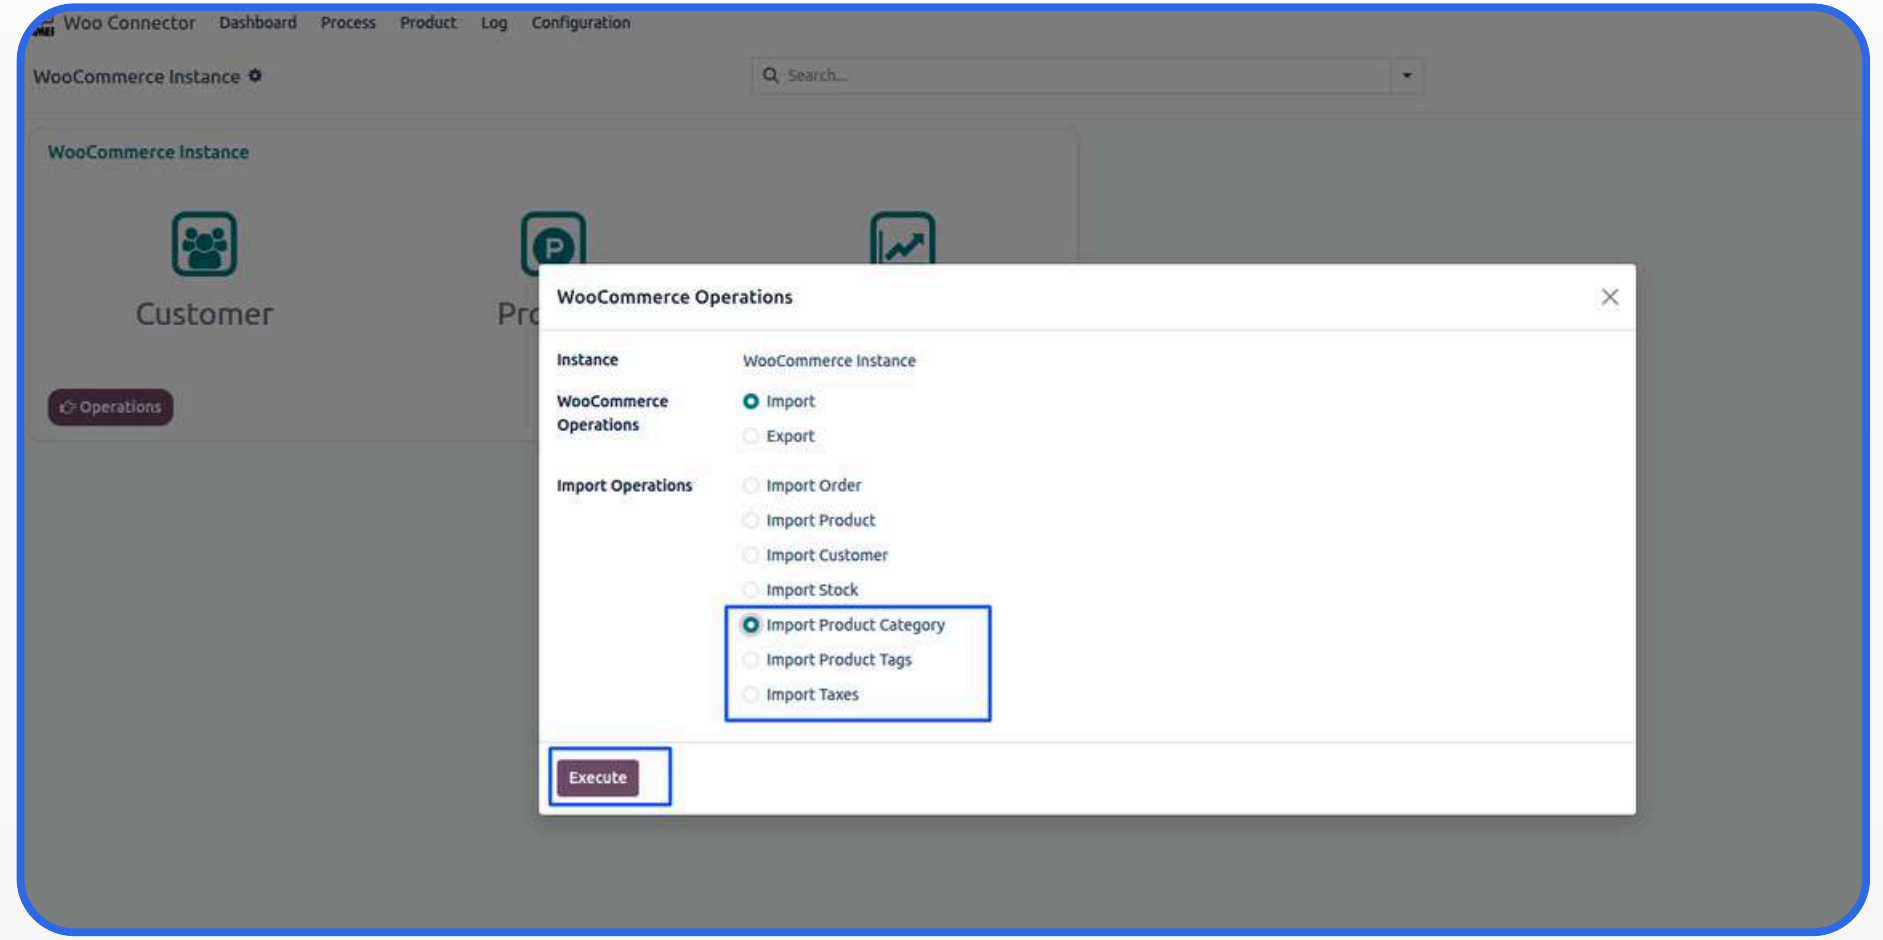

# WOOCOMMERCE X ODOO

Automate bi-directional syncing of products, orders, inventory, customers, and more — eliminating manual work and unifying your e-commerce operations in one ERP platform.

## Key Features

- **Bi-Directional Sync:** Products, orders, customers & stock
- **Auto Order Import:** WooCommerce orders into Odoo
- Live Stock Updates: **Real-time inventory sync**
- **Product Management:** Sync prices, images & categories
- **Webhook Support:** Faster, real-time data updates

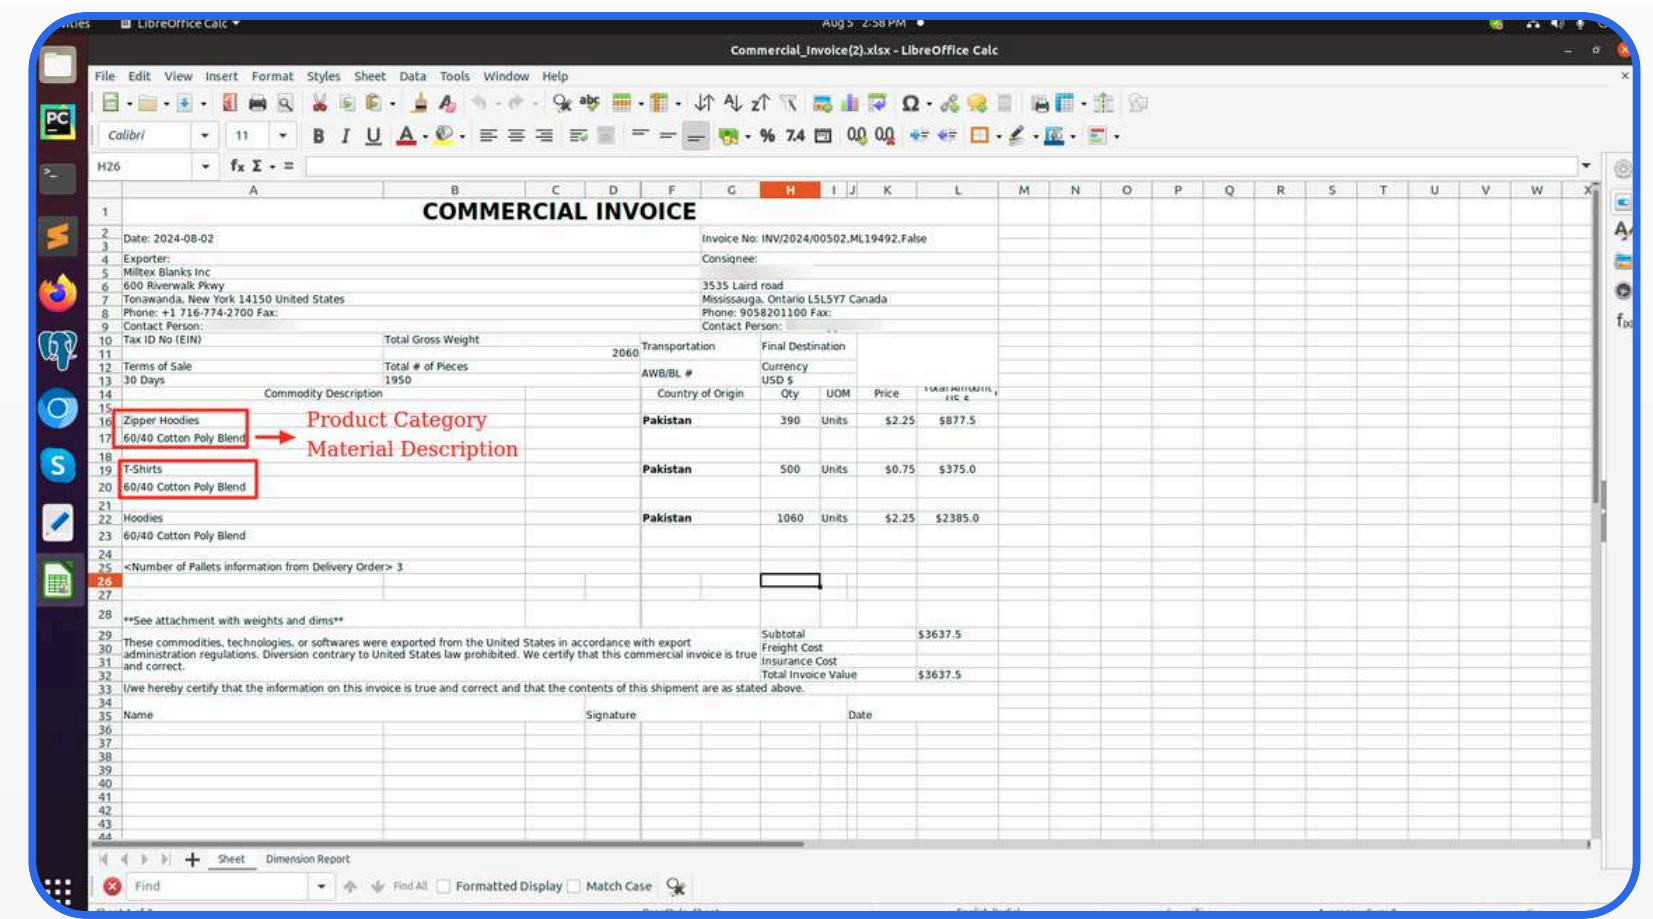

# COMMERCIAL INVOICE REPORT

Easily generate compliant commercial invoices in Excel from Odoo, including all essential customs details, for fast and accurate international trade documentation.

## Key Usecases

- **Speed up** customs clearance with accurate invoices
- Generate **export-ready shipment** documentation from Odoo
- **Ensure compliance** with global trade regulations
- **Simplify processes** for freight forwarders & logistics partners
- Maintain **organized records** for audits & compliance checks

# ENABLE STRIPE TERMINAL

Enable Stripe Terminal payments for backend Invoices and Sale Quotations — a unique solution by Vraja Technologies beyond POS limitations.

## Key Features

- **One-Click Setup** – Quick and easy installation.
- **Works Beyond POS** – Use Stripe Terminal in Odoo backend.
- **Back-end Payments** – Collect from invoices & quotes.
- **Real-Time Processing** – Instant payments via terminals.
- **Auto Sync** – Stripe data syncs with Odoo accounts.
- **Smooth Workflow** – Clean, integrated payment flow.
- **Auto Transactions & Invoices** – Sync Stripe payments & auto-create invoices in Odoo. ([Check out the Odoo App for Auto-Create Invoices in Odoo](#))

# SHIPPING WEB INTERFACE

Get real-time shipping rates from multiple carriers based on shipment details. Easily compare and choose the best option with our efficient Shipping Web Interface.

## Key Features

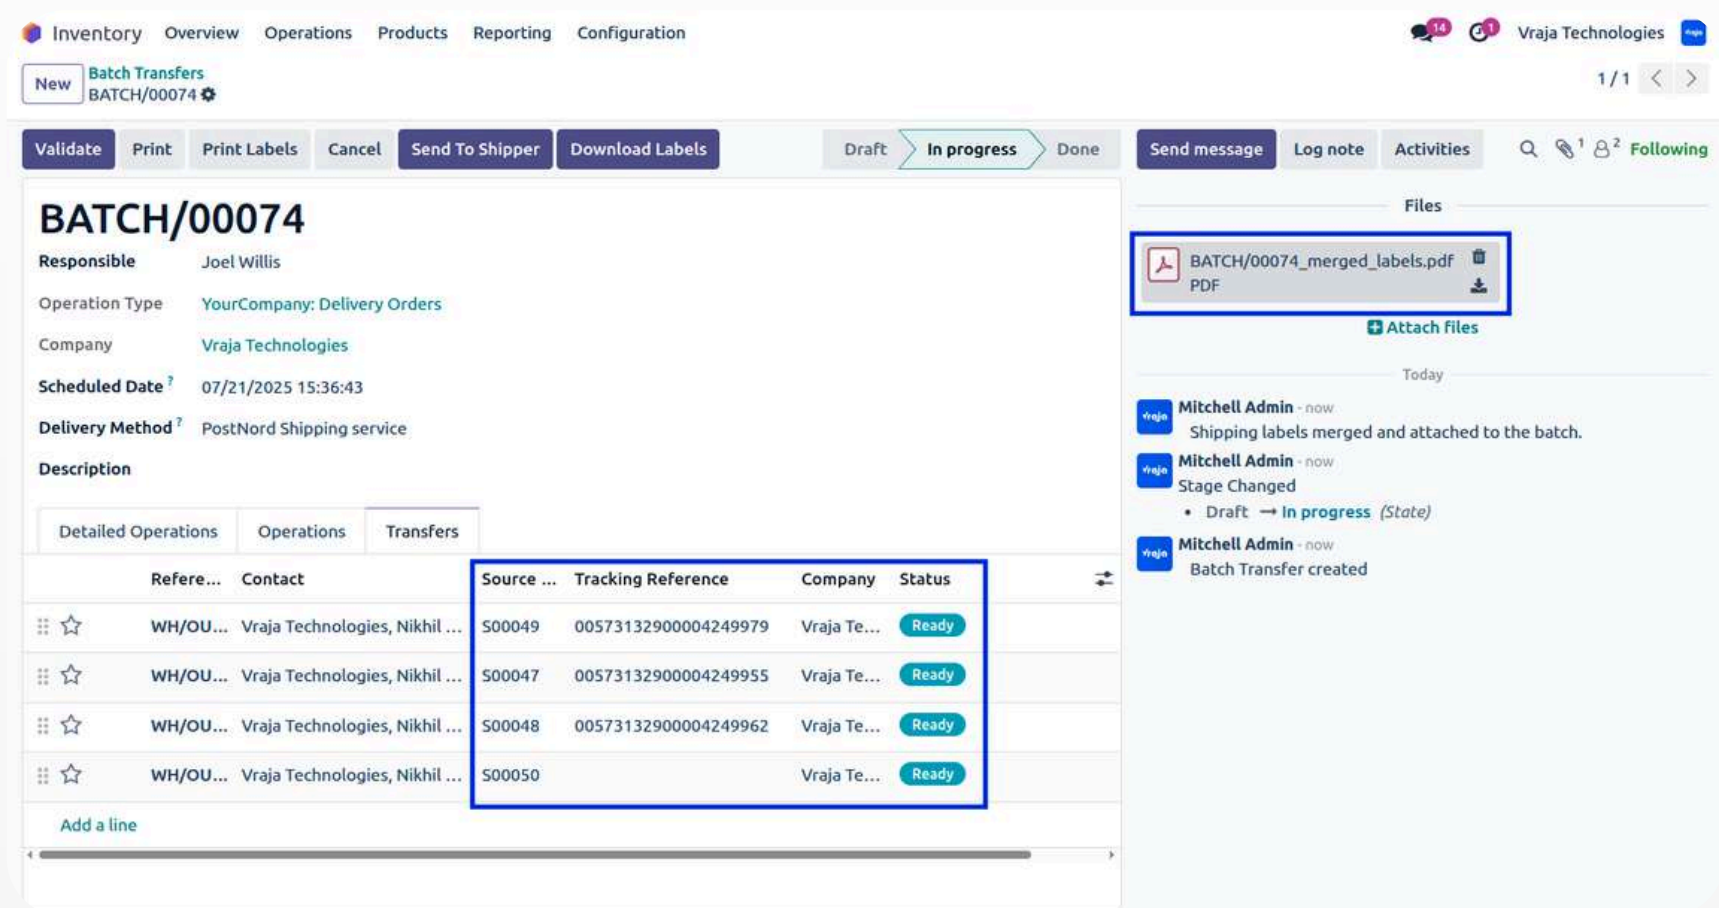

- Real-Time Rate Calculation - **Get instant shipping rates** based on addresses, package count, & weight.
- **Multi-Carrier Support** - Compare services like DHL, FedEx, UPS with options like Express, Economy, & more.
- **Customer-Friendly Selection** - Let customers choose shipping based on cost, speed, & service type.
- Instant Label Generation - **Auto-generate shipping labels** after service selection for print or download.
- **Seamless Shipment Processing** - Streamlined process from rate fetch to label all within one interface.

# BATCH SHIPPING

Process multiple Odoo deliveries in one go, auto-assign carriers, and merge all shipment labels into a single downloadable PDF for faster, error-free shipping.

## Key Features

- Batch validate **multiple delivery orders** in Odoo
- **Automatically** generate shipment labels for all orders
- **Assign default carrier** to unassigned deliveries
- **Merge all labels** into a single, organised PDF
- **One-click PDF download** for streamlined high-volume shipping

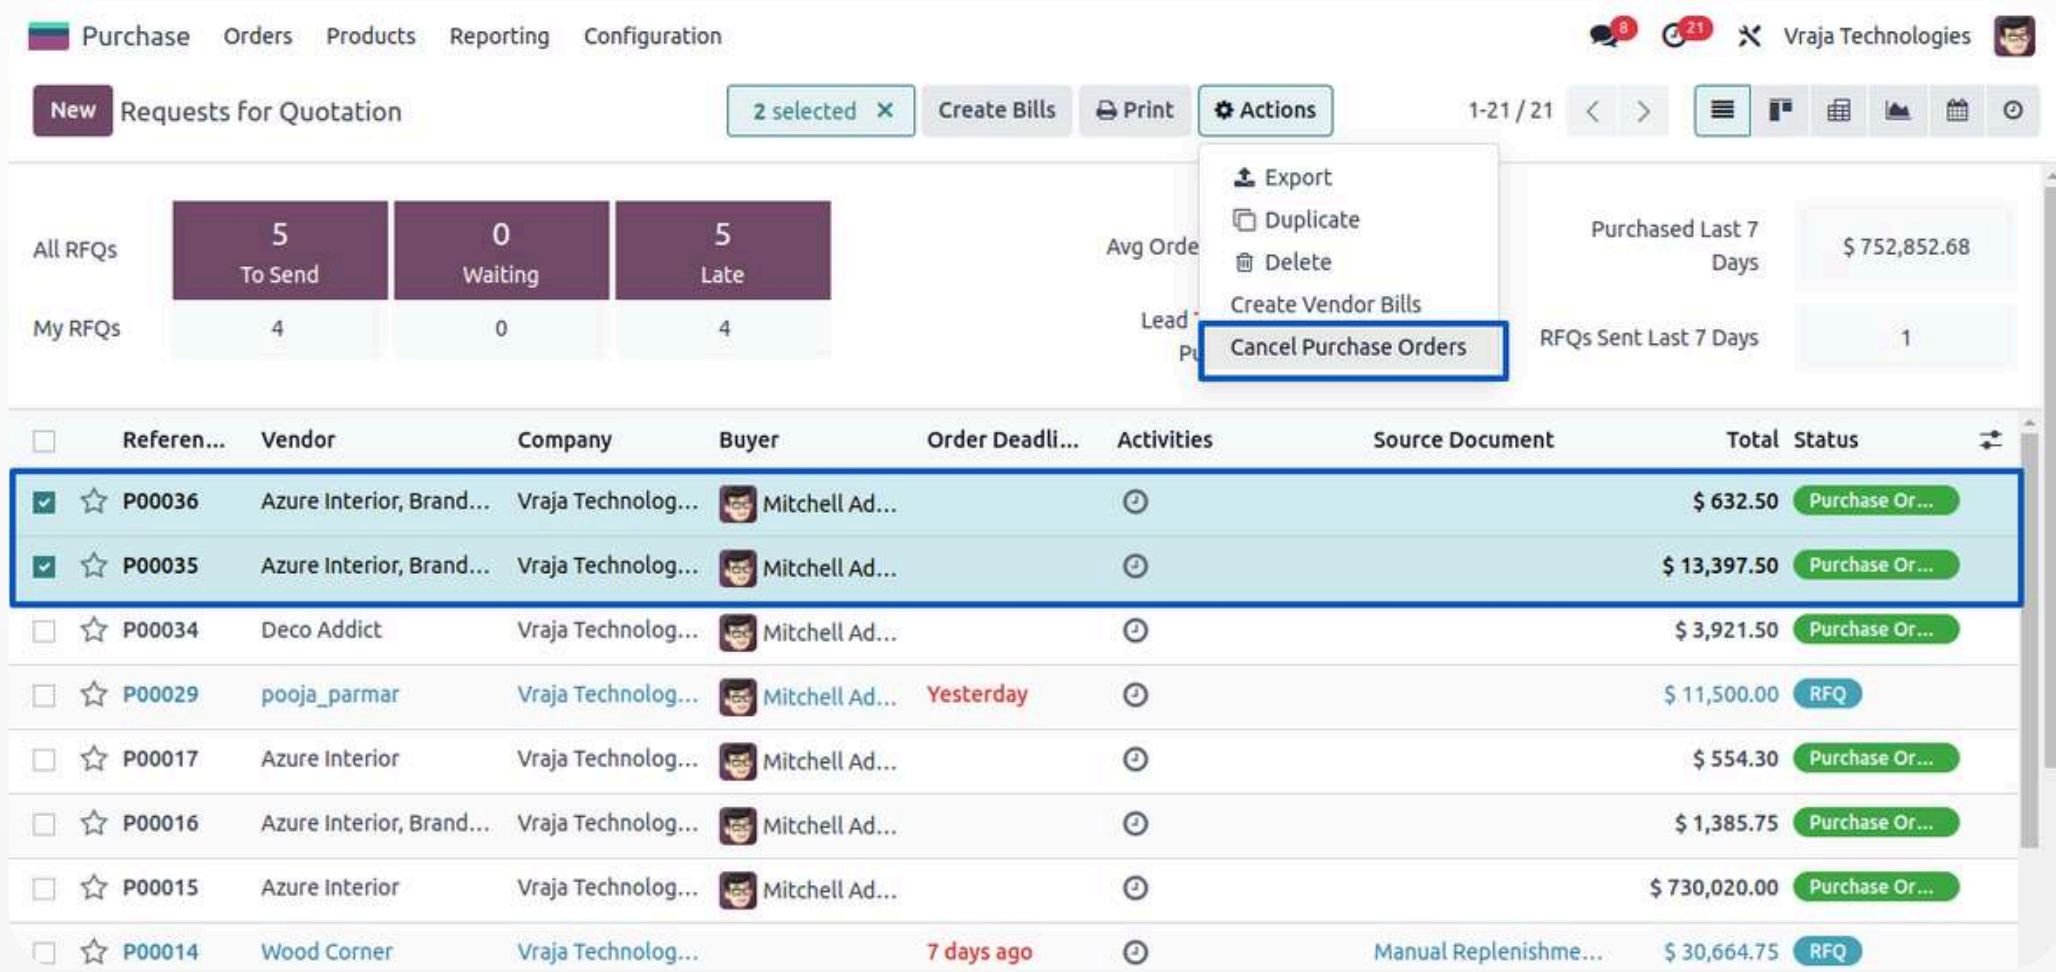

# ALL IN ONE CANCEL

Easily cancel completed operations in Odoo, including sales, purchases, invoices, payments, and inventory moves. Supports bulk cancellation directly from the list view for faster management.

## Key Features

- Cancel **Sale Order**
- Cancel **Purchase Order**
- Cancel **Picking**
- Cancel **Paid Invoices**
- Cancel **Inventory Adjustment**

# LTL SHIPPING INTEGRATION

Seamlessly connect Odoo with leading LTL carriers to automate freight rating, label creation, tracking, and delivery updates. Eliminate manual entry and reduce shipping errors effortlessly.

## Key Features

- **Cost Savings** – Pay only for the space you use.
- **Flexible Shipping** – Ideal for non-urgent or regular partial shipments.
- **Eco-Friendly** – Maximises truck space, reducing fuel waste.
- **Enhanced Tracking** – Modern LTL carriers provide real-time updates.

## Supported Odoo Apps

1. [Speedship](#) Odoo Integration
2. [C.H. Robinson](#) Odoo Integration
3. [Fedex Freight](#) Odoo Integration

# SHIPPING INTEGRATIONS

We build Odoo shipping integration apps for carriers worldwide, automating rates, labels, and tracking for faster, error-free shipping.

## Key Features

- **Rate Calculation** at sale order and delivery order levels
- **Label Generation** (single/multiple) in formats like PDF, ZPL, etc.
- **Real-Time Tracking** directly from Odoo
- Bill of Lading (**BOL**) creation
- **Multiple Package Support** for complex shipments
- **Authentication Token Generation** for secure API connections.

## Supported Odoo Apps

1. **US**
2. **UK**
3. **Spain**
4. **Canada**
5. **Italy**
6. **Germany**
7. **Australia**
8. **Europe**
9. **and more..**

*"All carrier logos shown country-wise are directly linked to their Odoo app for easy access."*

# UNITED STATES

Enable your Odoo ERP to integrate seamlessly with widely-used carriers and platforms in the U.S. logistics ecosystem.

## Key Features

- **Live Shipping Rates** – Get real-time quotes direct
- **Label Generation** – Create and print shipping labels instantly.
